PROFILE

Motivated BS Data Science student with strong foundations in machine learning, data analysis, and deep learning. Skilled in transforming raw data into actionable insights and building practical ML solutions. Seeking roles in Data Analysis, Data Science, or Machine Learning Engineering to apply analytical skills and contribute to real-world problem solving, while continuously learning and keeping up with emerging technologies. Strong problem-solving, research, and communication abilities, complemented by a disciplined approach to project execution and teamwork.

EDUCATION

Institute of Management Sciences | 2022–2026
Bachelor of Science in Data Science

- GPA: 3.56/4

Islamia College Peshawar | 2020–2022
FSc (Intermediate) in Pre-Engineering

Frontier Children’s Academy| 2017–2020
Matric (Secondary)

PROJECTS

Business Intelligence for Retail Stores

- Developed a Business Intelligence solution integrating inventory forecasting and sales trend analysis for retail environments.
- Applied machine learning and forecasting techniques to improve inventory planning and support data driven decision making.
- Created interactive dashboards and visualizations using Power BI to present key business insights and performance metrics.

EEG-Based Seizure Classification

- Built deep learning models to classify EEG signals for seizure detection and prediction.
- Performed data preprocessing, feature extraction, and model evaluation to improve classification performance.
- Utilized Convolutional Neural Networks (CNNs) to analyze complex biomedical signal data.

OULAD Student Performance Analysis

- Analyzed student demographic and academic data to identify factors influencing performance and predict at-risk students.
- Conducted data cleaning, exploratory data analysis, feature engineering, and predictive modeling.
- Generated actionable insights to support educational decision-making and student success initiatives.

SKILLS

Technical

Programming

- Python, C++, SQL

Tools

- Power BI, Jupyter Notebook, Google Collab

Core Areas

- Data Analysis, Machine Learning, Deep Learning, Data Mining

Soft

Problem-Solving, Attention to Detail, Curiosity, Self Learning, Independent Working, Listening

ADDITIONAL INFORMATION

Hobbies

Watching Football, Movies, Formula 1

Photography

Problem-Solving, Brain Teasers, Puzzles

Languages

English

Urdu

Pashto
